Current Responsibility

Rajeev Dutt is a principal and consulting actuary with Milliman's Financial Risk Management Practice in Chicago. With over 25 years in risk management and financial reporting, Rajeev has worked on various enterprise projects to implement risk management programs to manage financial and control operational risks. These include work with a range of financial institutions, insurance companies, and retirement services organizations on strategies to limit market risk, to evaluate investment performance, and design sustainable strategies for providers of retirement savings products.

Rajeev oversees several variable annuity outsource programs where activities include market analysis, financial risk hedging, GAAP, Statutory and IFRS reporting and projections, experience studies, M&A, and new product development. He manages day-to-day operations to monitor and control P&L outcomes by developing a robust financial reporting platform that emphasizes a quality and risk framework that aids client organizations in effectively executing on their risk management policies.

Rajeev manages a team comprised of actuaries, quantitative developers, traders, audit, and quality professionals.

Professional Work Experience

Prior to joining Milliman, Rajeev worked for more than 10 years with several international insurance companies in financial reporting, valuation, reinsurance, product development, and portfolio risk management.
