Layton H. Snover Jr.
Consultant

Milliman

CURRENT RESPONSIBILITY

Layton has been a consultant with the New York office of Milliman since 2002 and has cooperated with Milliman on workers' compensation and casualty software projects since 1991. Since joining Milliman, he has worked on a variety of consulting assignments in casualty-related projects, including software and systems design; data acquisition, analysis and management; client support; periodic reporting; and overall IT requirements. Layton develops and maintains the Milliman LCASE Reserve system in conjunction with the Milliman claims consultants for both internal valuation projects and for real-time system use directly by clients.

EXPERIENCE

Layton has a diverse background in information technology and software development. He has been developing applications for more than 20 years. He has managed and deployed sophisticated IT solutions in a variety of industries, with a strong background in general accounting, cost accounting, and workers'-compensation-based claim valuations and workers' compensation experience modification factor rating applications.

PROFESSIONAL DESIGNATIONS

- Member, Microsoft and Apple developer associations
- Beta tester of commercial application development software
- Completed coursework with IT-related companies, including Microsoft, Apple, Filemaker, Oracle, and other SQL database vendors.

EDUCATION

- BA, Communications, Rutgers University
- Substantial coursework and career experience in computer science, accounting, and business management
