**What the 2010 Survey Offers**

Milliman's **Group Health Insurance Survey** provides a comprehensive view of key rating statistics including:

- Total per member premium rates
- Single and family premium rates
- Anticipated future renewal rate increases
- Cost and premium trends over time
- Prescription drug costs
- Commercial inpatient utilization and charge levels
- Physician reimbursement levels
- Profitability and expense ratios
- Provider contracting changes and cost saving initiatives due to health care reform legislation
- Market strategy changes due to health care reform legislation
- Preparation for ICD-10 coding

**Survey Data Presentation**

Survey results are summarized by the number of responses, straight average, and the 25<sup>th</sup> and 75<sup>th</sup> percentiles for premium rates and trends nationally, regionally, by state and by metropolitan area.

Individual responses and participant identities are kept strictly confidential.

Starting in 2008, averages from Milliman internal databases are provided for inpatient utilization and charges, physician reimbursement, medical expense ratios, and profitability.

**Survey Administration**

Milliman sends a survey to HMOs and PPOs nationwide with a commercial large- or mid-group product. HMOs and PPOs participate in as many geographic areas as appropriate.

I am interested in participating in next year's Group Health Insurance Survey.
