

Milliman  
**IntelliScript**

The Milliman IntelliScript® system is a cutting-edge, proprietary service that provides detailed prescription medical records through the Internet. Based on an individual's authorization, IntelliScript delivers instant underwriting intelligence that enables automation as well as faster and more effective underwriting decisions.

**IntelliScript saves money and time**

Health underwriters can access this easy-to-use service to review tailored, color-coded prescription histories. The record—which includes drug names, dosages, fill dates, and physicians' information—enables underwriters to make better-informed enrollment decisions and adjust their premiums accordingly. This cost-saving approach to obtaining health histories results in fast and effective medical underwriting and lower overall insurance costs. Applicants also benefit because IntelliScript can dramatically shorten the time to approval.

**Milliman Healthcare Intelligence™**

Milliman Healthcare Intelligence™ includes industry-standard best practices, well established benchmarks, and precise analytics that enable you to make care, pricing and underwriting decisions with confidence.

IntelliScript is backed by Milliman's 60 years of experience in the healthcare industry and an unwavering commitment to customer service. The IntelliScript team is focused on prescription history solutions and brings a premier level of product expertise. We pride ourselves on the relationships we have with our clients—these relationships enable us to deliver an unparalleled customer experience.
