

ARE YOU CONCERNED ABOUT...

Selecting and pricing your business with far greater precision?

Reducing loss ratios and improving operating results?

Targeting the best opportunities for future growth and profitability?

Through our strategic alliance with EagleEye Analytics, Milliman can introduce you to *Talon*, the most powerful and efficient predictive analytics solution available. We are experts at using this solution on behalf of our clients. If you prefer, we also can help you use the system on your own. *Talon* helps you pinpoint your best- and worst-performing customer groups in ways you could never do on your own. The solution pays for itself the first time you use it by supporting better underwriting, pricing, and marketing decisions.

Please visit us at booths #8 & 9 during the Ratemaking and Product Management Seminar March 15-17 at The Fairmont Chicago or at milliman.com/analytics.
