

David R. Chernick

FCAS, MAAA
Consulting Actuary

CURRENT RESPONSIBILITY

Dave is a consulting actuary with the Milwaukee office of Milliman. He joined the firm in 2006.

EXPERIENCE

Dave's area of expertise is in personal lines property and casualty insurance, especially in ratemaking and ratemaking applications. Dave has extensive experience in both auto and property lines. He is experienced in all aspects of personal lines actuarial work, including pricing, reserving, classification plan analysis and development, data analysis and forecasting, generalized linear model (GLM) applications, residual markets, catastrophe management, pricing hurricane and earthquake perils, and the use of consumer credit information in personal lines rating plans.

Prior to joining Milliman, Dave was a consulting actuary for a small consulting firm. He also held many leadership positions in the actuarial functions of both Allstate Insurance Company and CNA Insurance Companies.

PRESENTATIONS AND PUBLICATIONS

Dave has authored three papers on ratemaking published by the Casualty Actuarial Society. He is a frequent speaker at meeting and seminars.
