

Charles W. Mitchell

FCAS, MAAA
Consulting Actuary

CURRENT RESPONSIBILITY

Chuck is a consulting actuary with the Milwaukee office of Milliman. He joined the firm in 1998 after working at a major reinsurance company.

EXPERIENCE

Chuck's area of expertise is property and casualty insurance, particularly ratemaking, loss reserve analysis, and financial planning. He has extensive experience in commercial lines, including professional liability, workers' compensation, and other long-tail exposures. Beyond standard financial reporting and pricing projects, he has conducted new program feasibility studies, assisted clients in preparing for meetings with rating agencies, assisted clients prepare regulatory rate filings, and projected self-insurance funding levels. Chuck has performed analyses for a variety of clients, including primary insurance providers, reinsurers, governmental agencies, and self-insured organizations.

Chuck's particular area of focus has been in professional liability coverage. He provides continuous pricing and reserving support to a number of medical professional liability (MPL) insurers. He performs annual reserve and prospective funding analyses for a number of self-insured healthcare organizations. He worked on a major expert witness assignment for a large MPL insurer and performed market stability and cost savings analyses in regard to the creation of a state patients' compensation fund.

PRESENTATIONS AND PUBLICATIONS

Chuck has published articles on medical professional liability and lawyers' professional liability in *National Underwriter*, the *Professional Liability Underwriting Society (PLUS) Journal*, and the *Medical Liability Monitor*.

Chuck participates in an educational seminar for officers of medical professional liability insurers annually hosted by Milliman. The seminar deals with a variety of issues common among medical professional liability writers, as well as current trends within the industry.
