

Travis J. Grulkowski

FCAS, MAAA

Principal, Consulting Actuary

CURRENT RESPONSIBILITY

Travis Grulkowski is a principal and consulting actuary with the Milwaukee office of Milliman. He joined the firm in 1996.

EXPERIENCE

Travis's area of expertise is ratemaking and loss reserving analyses for property and casualty insurance. He has experience in many lines of insurance, with a special emphasis on professional liability and commercial lines, including workers' compensation, general liability, and auto liability.

Travis has assisted numerous self-insured corporate clients, providing expertise in reserving and funding (including stochastic distributional analyses), loss retention analyses, collateral studies, and allocation calculations.

DUE DILIGENCE

Travis is experienced supporting actuarial appraisals for mergers and acquisitions.

EXPERTISE IN HANDLING LATENT CLAIM EXPOSURES

Travis has significant experience evaluating latent claim exposures, where the analysis includes non-traditional actuarial methodologies.

Exposures include asbestos, black lung, environmental hazards, and other toxic tort claim liabilities.

DETERMINISTIC AND STOCHASTIC REVIEW OF PROVISIONS

Travis has recently been involved with traditional insurance and latent claims reserving assignments utilizing stochastic approaches to derive ranges.

WORKERS' COMPENSATION & PREDICTIVE MODELING

Travis is experienced applying predictive analytics techniques to help lower clients' overall workers' compensation costs.

INTERNATIONAL EXPERIENCE

Travis has partnered with Milliman's Paris and London offices to assist with asbestos, pollution and health hazard (APH) analyses of United States exposures. Travis has also worked with United Kingdom exposures, Bermuda risks, and been involved in merger and acquisition assignments with Milliman's offices in Hong Kong and Argentina.
