

JOHN MCBRIDE

Senior Client Success Director

john.mcbride@milliman.com

+1 262 7963460

Current Responsibility

John is a healthcare analytics consultant with the Milwaukee office of Milliman. He rejoined the firm in 2008.

Professional Work Experience

John's area of expertise is healthcare information and reporting systems. He has assisted many organizations, including ACOs, employers, insurance companies, Medicaid state agencies, health plans, and healthcare providers.

He has assisted clients with implementation of Milliman's MedInsight data warehouse and decision support system, designing custom reporting systems, implementing small group underwriting renewal systems, custom data warehousing development, and development of employer business intelligence tools.

Examples of John's expertise include:

- Custom employer group report solution development and automation
- Custom MARA risk scoring process development
- EPIC Health Planet vendor integration
- Global RVU implementations and custom solutions to support provider contracting
- Data warehousing and financial analysis for multiple departments of Health and Human Services to support rate development
- PCP attribution modeling using EMR, payer, and CMS information
- Small Group Renewal Underwriting reporting system implementation
- Custom inpatient/physician benchmark development for an HMO in Wisconsin

Education

- BA, Economics and Actuarial Science, University of Wisconsin-Milwaukee
- MBA, Information Technology, University of Wisconsin-Madison

Presentations and Publications

- "Delivering Business Intelligence to Employer Groups" presented at Milliman Health Forum in September 2016
- "Episodes of Care – Appendicitis: Understanding Episodes of Care" Milliman Healthcare Analytics Blog in March 2014
