

# STODDARD DAVENPORT

MPH

Healthcare Management Consultant

stoddard.davenport@milliman.com

+1 303 672 9007

## Current Responsibility

Stoddard Davenport is a healthcare management consultant with Milliman's Denver, Houston, Phoenix, and Salt Lake City Health practices. He helps lead the behavioral health and population health teams. His expertise is in using data to inform decision-making, including policy analysis, development and evaluation of population health strategies and other interventions, and quantification of the impact of important public health issues. He joined the firm in 2011.

## Professional Work Experience

Stoddard's experience includes assisting work payers, provider organizations, associations, foundations, and state and federal agencies on a variety of important initiatives:

- Integration of physical and behavioral healthcare
- Development and evaluation of population health strategies to better allocate resources to patient needs
- Outcomes measurement for healthcare improvement efforts and interventions
- Burden of illness studies, including predictive modeling to identify unmet health needs or underdiagnosed conditions
- Mental Health Parity compliance reviews
- Behavioral healthcare cost and utilization projections
- Patient attribution and payment reform modeling to support value-based contracting

Stoddard leads the Health Practice's research efforts related to the opioid crisis and other behavioral health topics, and is heavily involved with developing behavioral health cost and utilization benchmarks for Milliman's Health Cost Guidelines.

## Education

- B.A. (Summa Cum Laude), Economics, Boise State University
- MPH, Dartmouth College
